

MISS SANDRA - GRADE FOUR

# NOVEMBER

The International School

## A recap...

During this month, the students and staff learned more about Thanksgiving. It was a wonderful opportunity for our school to come together and do a number of activities to maximize the spirit of America's purest holiday.

In Language Arts, the students have been learning about " Powerful Forces of Nature" such as hurricanes, tornadoes, tsunamis and many more. They read a story about the ancient city of Pompeii and the massive eruption of Mount Vesuvius.

In Grammar, the students have been learning about subject and object pronouns. They have also learned about present verbs ending with s or -es and past tense verbs ending in -ed.

In Mathematics, the students have been learning to add and subtract using three digits. They have learned to identify different strategies and solve problems mentally.

In Science, the students have started to learn about light. They learned about artificial and natural sources of light.

Finally, in Social Studies the students learned more about Medieval Castles and constructed amazing ones in class using recycled materials!

Happy November!  
Miss. Sandra :)
