

NOVEMBER

The International School

A recap...

Students have been busy this past month, as usual, and we have had many fun moments to share with you!

We completed our class novels, and worked on the appropriate projects for them. 6A worked to create a "quilt" with visuals from the book; while 6B let their creativity flow by creating their own versions of well-known fairy tales.

Math Unit 6 ended this month with a bang - a test! Students showcased what they know about time change & time zones; Canadian money; and how to exchange currency. The topics this month were quite high for this group but they left me pleasantly surprised with how well they took on the challenge!

Social Studies has us working with immigrants of Canada -- we focused on Japanese Canadians and their treatment.

Science we are continuing our talk of animals by focusing on Vertebrates and the sub-groups and their adaptations!

In Art, we started a study sculpture and famous sculptures in history. Students focused on Alberto Giacometti, a Modernist sculptor, and we made our own "Walking Men."

I know that the students are excited that Christmas and the Holiday Season are rapidly approaching. We have much to do until break but I know that they are ready for it!

UPCOMING EVENTS & IMPORTANT DATES

Novels & Packets DUE

13/12/19
