Grade 2 Newsletter – January in Review

Dear Parents,
Welcome back to a new year at The International School. I hope you had a lovely break. I wish you all the best in 2020!

In English Language, the students have been learning about what people like. They have participated in reading comprehension activities and have learned more about how others spend their free time. The students have also been reading *The Titanic* in class. Ofcourse, as many of our students are already familiar with the movie, reading about it has been

even more fun!
In Mathematics, the students have been learning to multiply. They were introduced to different strategies to solve problems. The students also participated in a “Array Scavenger Hunt” and played board games to reinforce concepts in math.
In Science, the student have just finished learning about the three states of matter and are currently learning about animal camouflage. During science class, the students looked at different examples of how animals use camouflage to protect

themselves in their habitats.
In Social Studies, they have been learning about various communities/countries.
In Art, the students have created beautiful winter landscapes using paint. They also made a titanic craft using construction paper and oil pastels.
That is all for now.

Wishing you all a wonderful winter break!

Miss. Sandra ☺

Pictures, pictures, pictures!
