

October

Grade 6 Newsletter – October in Review

Introduction... The second month of school is already behind us, and we are steadily moving forward. We had a few celebrations and trips, but we are hard at work academically as well.

In English Language, we have read all the stories in unit one and have moved on to the second unit looking at an informational text about ancient kids. We are in the midst of writing short

narrative stories which will be “published” into books in November. We are working hard to understand the writing process.

In Mathematics, students finished looking at the order of operations and practicing multiplication of 3-digit by 2-digit numbers and division of 3-digit by 2-digit numbers.

In Social Studies, we are continuing to learn about

the different groups of people who immigrated to Canada and how their lives changed throughout time.

In Science, students finished up the unit on Flight and completed the end of unit assessment by creating flying machines.

Happy October!

Ms. Kepa

Pictures, pictures, pictures!
