

DECEMBER CLASS UPDATE!

Grade 7 with Mr. Riley

A Santa's Bag of Learning

OUR INVENTION

We believe that a liquid or solid ball with the right substances may absorb the chemicals from the water when released. coagulation, filtration with coagulation, will be used.

English language arts

The class learned sleep and dreams through appreciating surrealist art and sleep studies.

Science

Students created inventions for a science contest based on the works of Polish Science Fiction writer, Stanislaw Lem.

Social studies

We researched vaccine and mask mandates and took sides debating these important issues.

Math

The class needed to use new mathematics and engineering concepts to design their inventions.

For January,

We'll be finishing up *The Maze Runner*, continuing our studies of particle theory in science, and enjoying the promises of a New year.

MERRY CHRISTMAS AND A HAPPY NEW YEAR TO ALL!
