

November

Grade 8a Newsletter November in Review

Introduction...

Happy November !! It is hard to believe that autumn is starting to become winter and we are three months into the school year. Recent events have us teachers thinking how to maximize learning during this pandemic and really hoping we are able to have our classes at school in the future. Flexibility and adaptability are great traits for both students and teachers in our present situation.

In English Language, We finished reading our class novel and will begin reading a new class novel momentarily. We are looking at strategies for effective reading comprehension.

Furthermore, we will be continuing with our Keystone textbook and focusing on narrative writing. We have also been doing our fair share of group presentations and the unity in the class is truly admirable! In Mathematics,

are presently looking at ratios and rate. We will then be going study percent and probability. We will continue with our weekly math tasks and plan to support the Polish math program.

In Social Studies, We have presented our sustainability projects which looked at what future cities should include in terms of renewable energy, transportation, education and infrastructure.

In Science, We are studying the input, output and purpose of various systems and will conclude the unit with a fun project !

Best wishes,
Mr. Joseph

Pictures, pictures, We have covered scientific notation and
