

February

Grade 6 Newsletter – February in Review

Introduction... Welcome back after the winter break. I hope everyone had a lovely time with their families and loved ones. We are excited to begin the next semester with full force back in the classroom. This month we've already began looking at projects and essays that will help to grow our creativity and skill.

In English Language, we finished up the unit with out last reading and summarized how

animals cooperate in the wild. We will be working on a critical evaluation essay, focusing on structure and editing skills.

In Mathematics, we began our geometry unit focusing on 2D shapes and polygons as well as angles and triangles. We will be using protractors, rulers, and a compass to create shapes.

In Social Studies, students are examining the role that Canada

plays on the international stage, more specifically in terms of trade and their function in the United Nations.

In Science, we are continuing to learn about the solar system, its vastness, and how celestial bodies orbit and interact with other objects in space

Happy February!

Ms. Kepa
