

# February

## Grade 2 Newsletter – February in Review

Dear Parents,  
February has been a very special month filled with much love and special wishes. We had a great time celebrating Valentine's Day at school!

In Language Art, the students have been learning the Verb Be in the past. They have also been busy reading the novel 'The Adventures of Tom

Sawyer' and preparing for the Spelling Bee.

In Math, the students have been learning to manage data and sort information.

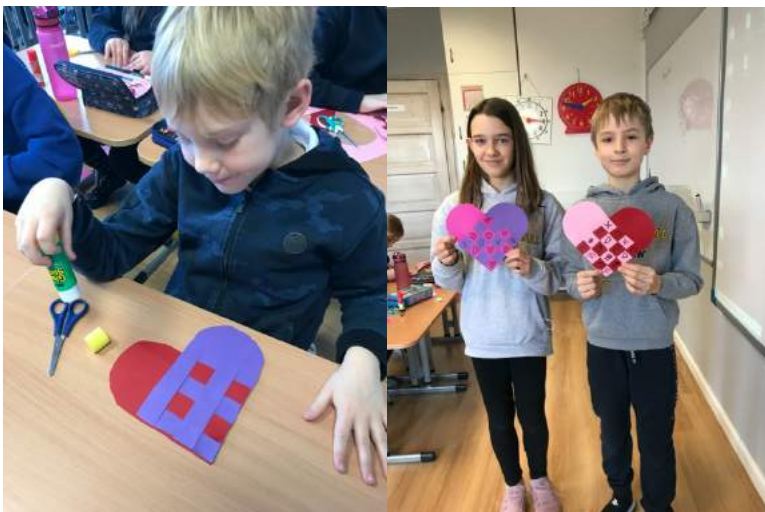

In Science, the students have been learning about animals and animal growth. This month we have been focusing on one animal group- The Amphibians. They learned that amphibians have several unique traits

that differentiate them from other animals.

In Social Studies, the students have been learning about Valentine's Day and the Carnival. The students also made colorful masks in art and woven hearts this month.

Happy Learning!  
Miss. Sandra

## Pictures, pictures, pictures!
