

MARCH CLASS UPDATE!

Grade 4 with Mr. Riley

A Pot of Educational Gold!

English language arts

Students finished reading their first novel of the semester and tried their hands at writing stories of their own. They also learned about Thai holidays and made a floating lantern called a 'krathong'.

Science

We learned about rocks and minerals. Everyone took a fun trip to a geology museum in Warsaw and learned so much!

Social studies

Students learned even more about Canadian geography. They also learned about interesting Canadian inventions, such as the zipper.

Math

The class learned all about making graphs and charts and made some about their classmates. They also learned about 3d shapes and made some out of paper.

For April,

We'll continue reading our new novel, Charlotte's web, and do some fun projects!

HOPE YOU WERE LUCKY ALL MONTH LONG!
