

# March

## Grade 6 Newsletter – March in Review

Introduction... We have BEEN busy at work for all of March starting with the Spelling BEE to Pi Day to the Science Project Days. Students worked on several individual and group projects in each of the Canadian Program subjects. I look forward to more productive days ahead.

In English Language, we are finishing up "Hatchet" and will soon begin our final novel "Danny the Champion of the World". Students

are typing up their research reports and learning about the correct way to write a bibliography. We are continuing with the Keystone books and practicing grammar concepts.

In Mathematics, we have completed our geometry unit with loads of practice about 3D shapes. Students completed class work, pop quizzes, and modeled shapes in order to learn about their specifications.

In Social Studies, we are examining the roles of international organizations and how Canada contributed to the world stage, specifically in the WHO, World Health Org.

In Science, we are finishing up the solar system unit by presenting individual and group projects as well as completing several lab reports.

Happy March!

Ms. Kepa
