

Grade 8B Newsletter - April in Review

Introduction...

I hope

Everyone had a fantastic Easter and you are taking advantage of the longer days as well as the slightly warmer weather. It was nice to see a few of you at the parent teacher interviews earlier this month and I am astonished that we are eighty percent through the school year.

In English Language,

We have completed unit four of our Keystone books. The students ended the unit by writing an essay on the meaning of home as well as a fun news presentation on events in the community. We are presently preparing for the upcoming speaking contest in early May just after the long weekend.

In Mathematics, We examined parallel and perpendicular lines and will continue

with lines and transformations.

In Social Studies, We continue to further our understanding of the confederation of Canada and its prominent people and events from 1850-1890. There will be a Canadian history quiz later on in May and it will be interesting to see how Canadian the class has become.

In Science, We are looking at water conservation and domestic, agricultural and industrial use.

Happy April!

Mr. Joseph
