

APRIL CLASS UPDATE!

Grade 7 with Mr. Riley

April Showers Bring English Mind Flowers!

English language arts

Students finished reading *The Book Thief* and started working on a card game to report on the book. They also tried their hands at writing fictional short stories and speeches. Please be aware that students can compete in a speech contest will be held on May 11th.

Science

We took a look at dangerous chemicals and how they can negatively affect a person's body. It's very important that students know about the dangers of certain substances and how to avoid them in their day to day lives!

Social studies

Students learned about public service announcements, which are posters and advertisements that are designed to warn people about dangerous things. They designed their own PSA's about a topic of their choosing and presented them to the class.

Math

The class learned all about interpreting data and charts as part of their assignments and how to use them as a part of a report on other subjects.

For May,

We'll finish reporting on *The Book Thief* and start reading *A Wrinkle in Time*.

RAIN RAIN GO AWAY, LET'S HAVE A SUNNY HAPPY MAY!
