

MAY CLASS UPDATE!

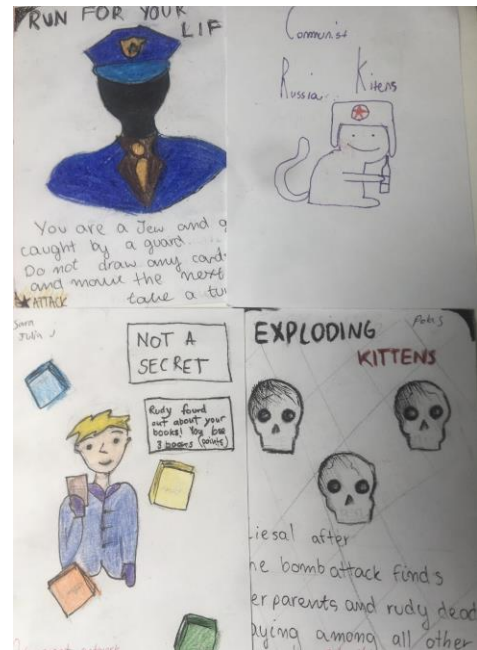

Grade 7 with Mr. Riley

Summer Is Almost Here!

English language arts

Students finished working on their card games based on *The Book Thief*: The results were fantastic as students showed off their creativity, understanding of the book, and sense of humor. We also started reading a new book about time travel and students wrote a time travel story.

Science

Students researched scientific advancements throughout history and how they could be altered to change the course of history. Students wondered how science and technology could have changed history if they came sooner.

Social studies

Students learned about public the history of racial segregation in America and had an animated discussion about the presence of racial segregation in the world today. They also learned a lot more about history through researching time travel.

Math

The class learned about probability and strategy while they were designing their *Book Thief Exploding Kittens* card game and had fun playing it.

For June,

We'll go to green school, finish up our assignments for the year, and say hello to summer.

SEE YOU NEXT TIME!
