

September

Grade 1: September in Review

Introduction...

In our first month of Grade 1 we got to know each other with our weekend shares and End of the Day jar!

In English Language,

We learned pronouns and conjugations of the verb "to be." We will end the month writing and speaking about a friend in class!

In Mathematics,

We learned how to compare items of different sizes, width, thickness and length. We ended the month making new rules to order and sort!

In Social Studies,

We learned about growth and change in both social studies and language arts classes, but also about what makes us special and unique.

In Science,

We explored parts of the body and what abilities they give us, as well as our five senses and sense organs.

In Art,

The most popular topic of the month, we profiled different artists such as Vincent Van Gogh, Leonardo da Vinci, Claude Monet and Mary Cassatt.

Happy September!
Miss Kelly
