

Grade 6 October News

Language Arts...

Our first Keystone unit as well as our first novel have come to end. We are exploring the new unit all about growing up. Students were tasked with writing an essay comparing and contrasting the childhoods of ancient kids and themselves. We also worked quite a lot on our short story projects and have really focused on perfecting our writing skills. We continue to explore grammar topics, mainly pronouns and conjunctions.

Mathematics...

Students have been taking up problems and figuring out how to work around multiplication and division equations. They have also been introduced to remainders and being forced to use critical thinking skills. Being able to break down the problems at hand through a logical lens and finding out the solutions by properly structuring a plan of attack.

Science...

Students have been studying flatworms, roundworms and other parasites. Students also study the environment and lifestyle of nematodes.

History...

Students are busy yet again with group projects that revolve around the Renaissance. They are researching and creating presentations about: Leonardo da Vinci, Michelangelo, Rafael Santi, Erasmus, and Nicolaus Copernicus.
