

Grade 4 November News

Language Arts

In class, we have discussed the importance of adjectives and verbs in the English language. We have also made it a group effort to cover the various stories about topics such as weather, nature, and safety. We continue to strive for more as we are also tackling more advanced spelling words that we encounter throughout the stories that we are reading.

Mathematis...

Students used everything they learned and incorporated their learning into group work. This group work was based on math activities that had to do with logic puzzles, division, and multiplication.

Science...

Students finished up the weather unit and other natural phenomena. They were able to discover what are solstices and equinoxes as well as what causes temperature changes throughout the year.

History...

Students were able to discover early Poland under the rule of the Casimir the Great and the other rules of the Jagiellon Dynasty. Students also learned about the Great War with the Teutonic Order and all about Knight and Tournaments
