

# Grade 5 November News

## Language Arts...

The students continue to read "The BFG" with understanding. They also began the third unit in the Cornerstone Books, Technology in Today's World. They read and discussed the first science reading about six amazing inventions. They have also started looking at the vocabulary and academic words for reading two.

## Mathematics...

Students have been given the opportunity to show off what they have learned throughout out the semester by actively participating in various group activities based on multiplication, division, and logic puzzles.

## Science...

Students are finishing up the second unit and reviewing cellular and aerobic respiration, as well as fermentation and gas exchange in plants and animals. This finishes up the unit on structure and vital functions of organisms.

## History...

Students focus on Imperial Rome and learning about the advantages and disadvantages of the Roman Army. They looked at Rome as a civilization and talked about the legendary beginnings of Rome with the story of Romulus and Remus.
