

Grade 6 November News

Language Arts...

This month, we finished up the second unit in the Keystone book about growing up. Students completed an extension activity and researched the life cycle of a plant or animal, presenting the information to the class. Students are also working in groups in order to create and write an issue of a newspaper. They are practicing grammar and spelling skills and continue to use what they learn on different projects.

Mathematics...

Students have been able to showcase their harnessed math skills in various types of group activities. Whether it is based on division, multiplication, or logic puzzles.

Science...

Students finished up unit two and reviewed all the necessary materials for the assessment. They also began looking at unit three which features arthropods and mollusks and how they adapt to their environments.

History...

The students were able to understand Poland's elective monarchy and its union with Lithuania. They were able to identify the different aspects of Poland's Golden Age and it's role as a cultural and religious hub in Europe.
