

November

Grade 2 Newsletter – November 2022 in Review

Introduction...

November was a busy month with many activities, projects, and much learning!

In English Language, we wrote our speeches for the Living History Wax Museum. We also started a creative writing activity about a turkey in disguise. Spelling was more a miss than a hit this month between holidays and no internet. We continue to utilize kidsa-z.com for online reading on Wednesday mornings.

In Mathematics, we learned how to use a centimeter ruler to measure items. Also, we learned and practiced 2-digit addition with regrouping as well 2-digit subtraction with regrouping.

In Social Studies, we focused on preparing for the Living History Wax Museum that was presented on Monday, 14th of November 2022. The students did a fantastic job on their presentations! Also, November is the month of Thanksgiving, so we did some activities centered on Thanksgiving.

In Science, we spent some time preparing for the Living History Wax Museum. Also, we did a lab activity about solubility called Marker Madness.

In Art, we drew and colored cornucopias via Art for Kids Hub on youtube.com. Also, the students disguised their turkeys for the creative writing activity in English Language.

Happy November!

Ms. Sue
