

December

Grade 0 Newsletter – December in Review

Introduction...

This month we were finally able to perform for our families and friends in our Christmas Show, which included the songs “Carol of the Bells” and “Rockin’ Around the Christmas Tree!” We played Holiday Bingo in our most festive Christmas pajama and watched a Christmas movie while eating candy canes!

In English Language,

We made our way through the names and sounds of the entire alphabet! We learned WH- questions like “who,” “what,” “where,” “when,” and “why” with our Pizza Party Game!

In Mathematics,

We worked out and counted by 2s, 5s and 10s all the way to 100!

In Social Studies,

We studied Christmas traditions from around the world including Mexico, India and China. We started to dive into geography, learning where these countries are (and more!) are located on a map.

In Science,

We discovered our five senses and the sense organs that are responsible for helping us. We did a

Winter Nature Walk, describing what we saw, heard, tasted, smelled and touched right outside our school!

In Art,

We made Christmas ornaments based on the countries we learned about in Social Studies: a poinsettia representing Mexico, a Diwali lamp based on the Indian holiday and a Chinese paper lantern, which you can see all over China during the holiday season. Like other famous artists, we visualized music and drew what we heard – it was relaxing as well!

Pictures, pictures, pictures!

IMPORTANT DATES:

January 6th – Epiphany

January 23rd – Mid-term parent meetings
