

January

Grade 1 Newsletter – January in Review

Introduction...

We got back into the school groove with our spelling quizzes and created our own materials,

questionnaire and collected data for our Science Fair Project that was based on the Bouba-Kiki Effect!

In English Language,

We learned about the relationships of living things and drew a food chain. We made a diagram of our favorite

plant or flower and wrote a paragraph of how it grows using time sequence words.

In Mathematics,

We finished skip counting by 2's, 5's and 10's to 100 and also learned about the coins of Canada and other countries!

In Social Studies,

We studied our interactions with others, interviewed a friend in class and described our

responsibilities. We also demonstrated how to share responsibilities!

In Science,

We learned about healthy living and the foods that keep our teeth and bodies strong. We completed our Health Journals

In Art,

We studied Chinese art and music: we colored Chinese string instruments and listened to their sounds, made paper fans and danced to "Mo Li Hua," built Chinese Lanterns and painted our own ancient Chinese scrolls!

Happy January!

Miss Kelly

IMPORTANT DATES:

Science Fair Project:
February 6th

Winter Break: February
13th-24th

Pictures, pictures, pictures!
