

January

Grade 2 Newsletter – January 2023 in Review

Introduction...After being sick for a week with the flu at the beginning of January, we returned to our normal schedule.

In English Language, we wrote a descriptive paragraph about a party we wanted to have. We also did English lessons from the CCC book. The students continued reading online with Kidsa-z.com.

In Mathematics, we began learning about fractions. IXL.com was used for the students to practice and apply what they learned about fractions. We also used the CCC book for practice with fractions.

In Social Studies, began learning about Canadian geography and history. The students colored a map of Canada and labeled each province. We then started learning about different types of maps. We also watched

a video showing many of the unique physical features of Canada and its provinces.

In Science, we selected our topics for the Science Fair. The students also wrote their questions and hypotheses. The Science Fair is scheduled for Monday, February 6, 2023. We then began learning about simple machines and animals via GenerationGenius.com and the CCC book.

In Art, we utilized Art for Kids Hub on Youtube.com to draw and color winter-related pictures.

Happy January!

Ms. Sue
