

Grade 4 February News

Language Arts

Students have continued to thrive for success in all aspects of language arts. Making and using real world connections with that of the content they are being taught.

Mathematics...

Students have been adapting to the newly found formulas that have been being used in the recent lessons.

Science...

Students learned different body systems and body parts. They participated in daily activities of labelling information and adding the information to their notebooks.

History...

Students examined the importance of the Battle of Warsaw. We covered the strategic role of having a city by the sea and the creation of Gdynia. We have also touched upon the Gray Ranks underground paramilitary operation during WWII.
