

March

Grade 2 Newsletter – March 2023 in Review

Introduction... March, the month when we celebrate St. Patrick's Day, spring begins, and the clocks spring forward!

In English Language, we read "Titanic...Lost and Found" and completed comprehension activities related to the book. We also resumed spelling lessons and quizzes after a break because of the Spelling Bee. Speaking of the Spelling Bee, I want to congratulate all the participants! We are continuing to improve our reading through kidsa-z.com.

In Mathematics, we are learning about patterns, AB, AAB, ABB, ABC, for example; pattern rules, extending patterns, etc.

In Social Studies, we are learning about the geography and history of Canada.

In Science, we are learning about simple machines – the lever, the wheel and axle, the wedge, the pulley, the inclined plane, and the screw.

In Art, we learned how to draw our dream bedroom with a lesson from Ms. Zosia. We have begun to learn about the art of Ted Harrison, a Canadian landscape painter.

Happy March!

Ms. Sue
