

# March

## Grade 3 Newsletter – March 2022 in Review

Introduction... March, the month when we celebrate St. Patrick's Day, spring begins, and the clocks spring forward!

In English Language, we are reading "Pippi Longstocking" in small groups and completing comprehension activities related to the book. The students will complete the booklet at home and return it on April 28, 2023. We also resumed spelling lessons and quizzes after a break because of the Spelling Bee. Speaking of the Spelling Bee, I want to congratulate all the participants! Also, we are continuing to improve our reading through kidsa-z.com.

In Mathematics, we are learning about patterns, patterning

vocabulary, types of patterns, pattern rules, extending patterns, missing terms, etc. When we finish learning about patterns, we will take a quiz before beginning to learn about algebra.

In Social Studies, we are learning about the geography and history of Canada. We are using videos, the CCC book, and other materials for this purpose. We also learned about St. Patrick, traditions and customs of St. Patrick's Day.

In Science, we are learning about forces, what is a force, types of forces (muscular, friction, gravity, magnetic, static, etc.)

In Art, we colored shamrocks in a pop art

style for St. Patrick's Day. We have begun to learn about the art of Ted Harrison, a Canadian landscape painter. We will create an original watercolor painting in the style of Mr. Harrison.

Happy March!

Ms. Sue
