

## Grade 0 Newsletter – February and March in Review

Introduction...

In February we had our first winter break! In March we watched the school Spelling Bee to see what's to come next year. We started bringing our own English books on Fridays, which has been a huge hit!

In English Language, In February we started "magic wand" reading and learned the word families -ig, -ug -og, -op, -an and -at to name a few. In March we learned about nouns (proper nouns included) and practiced writing our opinions!

In Mathematics, In February we hip-hopped around the clock, telling time to 15, 30 and 45 minutes. We also began comparing numbers. In March we

learned about comparing numbers 1-100 and problem solved! We also began solving word problems with story mats.

In Social Studies, In February we finished learning about people living in different habitats, like on islands and in mountains. We worked as a team to build these communities with blocks. In March, we learned about days, weeks, months and years. We made a "My House All Year" book that helped us to review the seasons.

In Science, We completed our first Science Fair project! In March, we explored the parts of the body, both inside and out, and their functions. We

made pasta skeletons, checked our heart rates before and after exercise, counted our hearbeats with clay and tooth picks, and made origami lungs!

In Art, We drew nature using only warm or cool colors and created symmetry bugs. In March, we began learning about important artists like Jackson Pollack, even creating "action paintings," and Andy Warhol.

Happy March!

Miss Kelly

### IMPORTANT DATES:

April 6-11: Easter Break

April 13: Francophonie

April 17: Individual Parent-Teacher Meetings

April 26: Speaking Contest

## Pictures, pictures, pictures!
