

Grade 5 May News

Language Arts...

Grade 5 students are always the best in the Canadian ELA program. This month, they worked on music, writing to recommend, the differences between genres like "myths", "legends", and "fairy tales". Their writing continues to improve, and we will spend more time on spelling rules to help iron out the quality of their writing, which is still really excellent for their grade level. I promise, they continue to make you proud each day!

Mathematics...

Students have been able to polish up on all their math related content for the remainder of the year. Ensuring that all students have been well equipped to continue with learning math via the English language for the next year.

Science...

Students worked on the differences in plants by identifying the characteristics of mosses, ferns, gymnosperms, and angiosperms.

History...

Students were able to create and present both comic strips and short skits about: Teutonic Knights, the Mongol invasion of Poland, Krakow Academy, Jadwiga the King, the Polish-Lithuanian Commonwealth, and the Battle of Grunwald.
