

Grade 8 May News

Language Arts...

Students prepared speeches for the competition, as well as for the end of the year program concerning their future plans for their careers. Students also prepared vision boards about their life plans, continued Unit 5, and have progressed through "The Hunger Games" in a round table environment, where we discuss literature topics like "allegory" and themes related to the outside world.

Mathematics...

Students have been becoming mathematically engaged via group math activities. They have also been given more time to finish up their CCC books before the year comes to an end.

Science...

Students wrote proposals to prepare for an ecology fair in honor of World Ecology Day, which is celebrated by the United Nations Environment Program (UNEP) every year on June 5. Details of the proposed fair are to follow due to testing and holidays.

History...

Students have finished up Polish history in the early 90s. They have learned about the American government and the electoral system of elections in the USA. Students learned about the last few presidencies.
