

Grade 4 June News

Language Arts...

Students have been able to finish their language arts curriculum and relax a bit. This year has been a blast for myself as I have been able to teach this class. Students have also been able to participate in more in-class activities. Enjoying the last of what Mr. Stock has to offer for the class.

Mathematics...

Just like language arts students have been able to relax a bit more and enjoy the last few weeks of school practically the same way as in their language arts classes.

Science...

Students finished the year learning about the rock cycle, land formations, and the differences between fresh and salt water. Students are very excited about the summer, and I can't wait to see them next year.

History...

We have finished up the curriculum and are examining extra topics. We looked at Greek philosophers and the beginning of civilizations. We talked about the seven wonders of the ancient world.
