

Grade 5 June News

Language Arts...

Students finished the year learning about National Parks around the world, which tied into writing camp fire stories for Green School. However, they were more excited about playing around than getting to tell their stories around the campfire, which did not change how great Green School was to spend time and enjoy nature. Please have a good break, and thank you so much for the opportunity to work with your kids.

Mathematics...

Students were able to take their foot off the pedal as far as math intensity. Finishing off the year with more fun math related activities to finish the year on a good note.

Science...

Students finished the year learning about flowering plants and were able to investigate flower parts by observing flower diversity in the garden.

History...

Students were able to finish up all of the topics covered in the curriculum. We watched more videos about Asian empires and focused specifically on the Mughals, Timurid and the Ottoman Empires.
