

## Grade 3 Newsletter – May 2023 in Review

Introduction...Many fun and exciting activities happened in May. We started the month with Green School. We experienced European food and culture with the European Festival.

In English Language, we completed the novel, “Pippi Longstocking” and the activities associated with it. We have started our last novel, “Anne of Green Gables.” We are also working on improving our English language skills.

In Mathematics, we completed our learning of patterns. We have started to learn about graphs and data management.

In Social Studies, we learned about Sweden in preparation for the European Festival.

In Science, we completed our study of force and motion. As a culminating project, the students designed and made a model of a race car. We had some interesting race cars; some could even fly!

In Art, we drew and colored a funny avocado for Cinco de Mayo. We drew and colored cards for our mothers for Mother’s Day in the US and in Poland.

Happy May!

Ms. Sue

### IMPORTANT DATES:

1 June – Children’s Day & Sports Day
