

Grade 6 September Newsletter

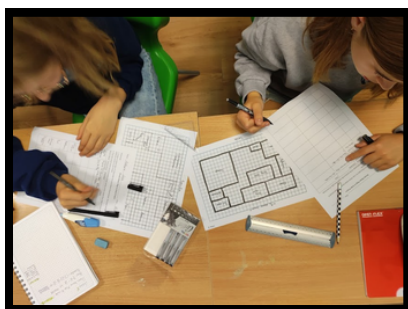

Language Arts...

We have been learning about the mysteries and discoveries from around the world, the students have learnt about ancient hidden gems in different countries, and the type of people that study ancient things like archeologists.

Math...

Students began the year with a short "All About Me in Numbers" Project to review B.E.M.D.A.S. rules and simple equations. We have worked on designing a dream house and calculating perimeter and area of regular and irregular polygons.

Science...

The main focus has been tissue within the human body, connective tissue, Epithelial tissue, Muscle tissue and nervous tissue. The students now understand the different functions and how each tissue type plays an important role in the human body.

History...

We are overjoyed to be beginning a new school year. Students are already busy working on projects about great geographical discoveries. They created posters about Vasco da Gama, Ferdinand Magellan, Christopher Columbus, new devices in sailing, and the effects of these journeys.
