

# Grade 8 September Newsletter

## Language Arts...

Grade 8 is an exciting time and the students seem to be ready to tackle anything this year. We are already finished with unit one in the Keystone Books and have looked at descriptive and biographical writing. We reviewed adverbs, adjectives and figurative language and we have started our first novel of the year, *"The Giver"*.

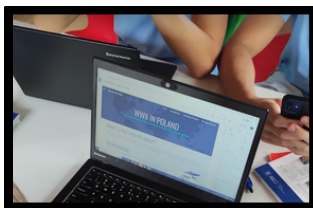

## Math...

Students began the year with a short "All About Me in Numbers" Project to review BEMDAS. They worked in groups in order to show their mastery of order of operations and we began looking at rules exponents and integers.

## Science...

Cell division - the structure of DNA and what chromosomes are. The students now understand how important cells are in the human body.

## History...

We are already working very hard on our first set of projects. Students are creating websites about the different time frames of the pre-war and wartime periods as well as the Defensive War of Poland and smaller battles that were fought.
