The system is based on prepayment, i.e. to order meals, you must first make an advance payment and, after receiving it in the application, place the order. The payment itself does not constitute an order, because we do not know which sets have been selected and for which days.

If there are arrears or overpayments for the previous school year, these amounts will be entered into each child's settlement balance and included in the amount due. **Please make payments for each child separately if there is more than one on the account**, with the appropriate transfer title provided in the application after selecting settlements for a given child.

#### **Mobile application for your phones.**
