

October

Grade 0 Newsletter – October in Review

Introduction...

This month we learned lots about honeybees and celebrated our first Halloween together as a class!

In English Language,

We continued learning about letters of the alphabet and their corresponding sounds while also practicing reading CVC words! We learned about capital letters and when to use them and wrote about a time we went on a picnic!

In Mathematics,

We learned about the names of shapes and counted their sides and corners. We practiced our cutting skills by cutting out some unique shapes like parallellograms and crescents! We began addition too!

In Social Studies,

We learned about community helpers like crossing guards, nurses, farmers and bakers. We identified places where community helpers work, like on a farm or at a bakery, and matched them together!

In Science,

We learned about farm animals, like roosters and chickens, while also practicing our directional words and spatial concepts with the song "All Around the Farm." We began learning about zoo animals too!

In Art,

We studied primary and secondary colors as well as color mixing! We learned the secondary colors that two primary colors make and created our own color mixing masterpieces.

Pictures, pictures, pictures!

Happy October!

Ms. Kelly

IMPORTANT DATES:

November 1st - All Saint's Day
(School Closed)
November 2nd - Day Off
November 3rd - Day Off
November 23rd - Thanksgiving
Day
