

Grade 5 October Newsletter

Language Arts...

Students went on a few trips outside this month, to a pumpkin farm and to the opera. This month the students learnt a lot about helping others, with stories like; 'The Elephant Shepherd' and 'Doctors Without Borders'.

Math...

Students continue to practice B.E.M.D.A.S. rules by completing a maths calendar project in pairs that showcased their math skills and creativity. We also had a short quiz to show our mastery of the topic.

Science...

The students have learned a lot about the differences between animal cells and plant cells. The students made models and did presentations of how cells would look via a microscope. Some models were made with jelly, fruits and chocolate which the kids enjoyed eating after the presentations.

History...

Students worked on group PowerPoint presentations about Ancient Greece, covering the following topics: The Olympic Games, philosophers, mathematicians, literature and Archimedes. They learned about Spartans and the polis of Athens.
