

Grade 6 October Newsletter

Language Arts...

This month the students have learnt about how the Maya culture, Greeks and the Roman culture lived in their different time periods. Grade 6 are also paragraphing more in their writing, this was shown in their summary of texts that were read in class and their formally written dialogues.

Math...

Students are working with decimals, fractions, and percents. We are learning how to convert between the three and how to answer word problems based on them. We also began practicing multiplication and division of fractions.

Science...

The students now know the difference between invertebrates and vertebrates as well as the different types of invertebrates that live in the ocean.

History...

Students have completed and presented Google Slides presentations about figures of the Renaissance including: Leonardo da Vinci, Michelangelo, Rafael Santi, Erasmus, and Nicolaus Copernicus. We have also talked about Gutenberg and his contribution to the world.
