

Grade 8 November Newsletter

Language Arts...

We are working steadily and continue to make way in reading and writing skills. We are finishing up the first novel and the next unit in the Keystone books. We are starting different types of writing assignments including story starters, fictional essays and writing a fictional narrative with illustrations.

Math...

We are looking at different types of projects to review ratios and rates. Students completed short booklet projects. We began looking at different types of percents and completed a shopping spree project, calculating prices.

Science...

Students have learnt about the study of fossils as well as living fossils. Grade 8 now understands that fossils aren't just bones, but could be feathers, shells and leaves as well.

History...

Students learned about the Warsaw Uprising and the AK. They also learned about Katyn and began to work in groups to create posters about: Germany After the War, Origins of NATO and the Warsaw Pact, Korean War, Communism in China and Japan After the War.
