

Grade 5 December Newsletter

Language Arts...

Grade 5 students have been learning how to write poetry and have improved their writing skills by using adverbs and different types of conjunctions in their sentences. They have also been rehearsing Christmas songs inside and outside of the classroom to perform at their Christmas show.

Math...

Students completed several activities and class projects that focused on irregular fractions. They were able to convert them to mixed numbers and work together in groups to solve puzzles. We also reviewed with a short Jeopardy game.

Science...

The students have been learning about human cells as well as animal cells. Students also have learnt about the different types of bacteria, and which ones are harmful.

History...

Students have been busy creating posters about: Byzantium, The Rise of the Islamic Civilization, the Carolingian State, New Nations in the West, and Slavdom. Students presented their work to the class.
