

December

Grade 1 Newsletter – December in Review

Introduction...

We completed our second project, but this time in a group! We also took a field trip to see how ornaments were made.

In English Language,

We began learning about traditions and celebrations. We started using Chromebooks every week and are learning how to do research; our first task was to research a chosen country's holiday and write down information we found!

In Mathematics,

We reviewed numbers 20-100 as well as vertical and horizontal addition and subtraction! We started reviewing skip counting by 2's, 5's and 10's and had an introduction to American currency - Canadian currency to follow!

In Social Studies,

We learned about respect with the story "Lily's Purple Plastic Purse" and completed a book reflection. We started learning about our roles at home and in our community.

In Science,

We learned about healthy eating with the Canadian Food Guide and also about healthy living! We used the story "How Do Dinosaurs Stay Safe" to illustrate choices that are safe and unsafe.

In Art,

We got into the holiday spirit with lots of Christmas crafts! We made Christmas stockings, paper nativity and winter scenes and also Santa handprint ornament. We can't forget the reindeer cards.!

Happy December!

Pictures, pictures, pictures!

Mrs. Kelly
