

Grade 4 February Newsletter

Language Arts...

Write, write, write! It's all that Grade 4 students have been constantly doing for this past month of February and they are excelling! Recently students have been doing various writing works. They wrote a friendly letter and a persuasive letter with great realistic ideas for changing our community. Grade 4 have also created their own comics which manifested their wild imagination.

Math...

Students continue to tackle fractions problems. They created fraction pizzas and learned how to make equivalent fractions. They also began adding fractions.

Science...

The students have been learning how to prepare presentations and present their work in class. They have been comparing and contrasting different biomes.

History...

Student learned about Kosciuszko and Bonaparte. They listened to their histories. They worked in groups to create and present posters about Marie Sklodowska-Curie and her achievements.
