Grade 3 Newsletter – February 2024 in Review

Introduction... For being the shortest month of the year, it seemed like February lasted forever! I'm glad to see warmer weather return!

In English Language, we started our novel study of Anne of Green Gables. We learned about and practiced kindness. Spelling and quizzes continue to be a part of our learning. We continued using kidsa-z.com to practice reading.

In Mathematics, we finished our study of adding or subtracting 3-digit numbers with regrouping. We then started a unit on data and graphing.

In Social Studies, we started a unit on Ancient Greece.

In Science, we began a unit on learning about force and motion.

In Art, we learned to make origami figures, such as a jumping frog and a bird.

Happy February!

Ms. Sue
