

March

Grade 0 Newsletter – March in Review

Introduction...

What a month, celebrating Easter, World Water Day and continuing our Fun Fridays! This month we added Pokémon and dinosaur sight word game to our Fun Friday game collection.

In English Language,

We continued learning sound and spelling patterns including: silent letters, digraphs and had a introduction to vowel teams. We also looked at nouns with our song "What is a noun?" We reviewed L, R and S blends, too!

In Mathematics,

We added doubles and nearly doubles neighbors! A donut doubles game helped us to learn these math facts. We also learned about flat and curved surfaces while reviewing 2D and 3D shapes.

In Social Studies,

We began learning about the days of the weeks and also had an introduction to the months of the year and years. We looked at our circle time calendar and will soon have a designated calendar keeper each week!

In Science,

We completed our units on habitats and took another look at weather patterns! We asked questions like "why do we have seasons?" and "what causes a tornado?" We used our Chromebooks to create storms and tornados ourselves!

In Art,

We made Claude Monet water lilies and also created crafts for Easter, like hatching chicks in a basket and cotton ball Easter bunnies!

Happy March!

Miss Kelly

Pictures, pictures, pictures!
