

Grade 4 March Newsletter

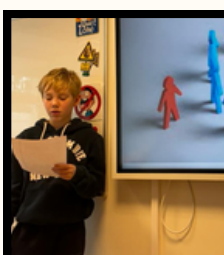

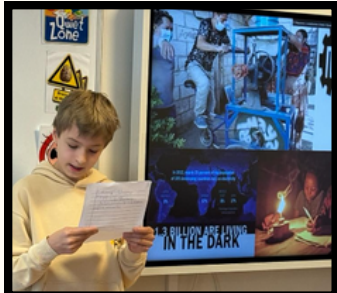

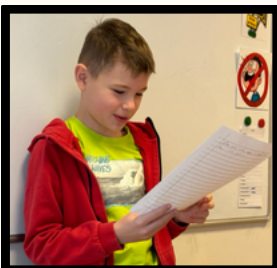

Language Arts...

For this month of March, Grade 4 has made a turn from writing persuasive letters to making a persuasive brochure of events with helpful ideas for the community. On top of that, students did some deep research to write a speech based on a topic about either a problem in the world or our community. Many students were brave enough to present their speech with a presentation.

Math...

Students showed their mastery and understanding of mixed numbers, improper fractions and reducing fractions. They learned a little bit about the number pi and what it means.

Science...

Students have learned about environmental anthropology and how organisms adapt in water environments, grade 4 students have been getting involved in classroom discussions and sharing their ideas.

History...

Students learned about the reconstruction and the city of Gdynia, the "Szare Szeregi", and the Uprising. Students took notes listened to stories from these important moments in history.
