

# Grade 8 March Newsletter

## Language Arts...

This month we have worked on presentation skills and completed a TV News segment project as a class. We completed the next unit in the Keystone books and focused on different grammar concepts including: adjectives and adjectival phrases, adverbial clauses of time, purpose, reason, and contrast.

## Math...

This month we worked a little bit with volume and surface areas of different shapes. Students also looked at the number pi and its importance in math, exploring in several different ways how it is used in calculations.

## Science...

The students have still been learning about ecology, each lesson they are given vocabulary words that are explained in detail and they try their best to re-explain the vocabulary words. The students took a trip to the nearby forest to help them understand a bit more about mother nature and the ecological niche of organisms.

## History...

Students created Google Slides presentations about different aspects of Polish history in the recent past. they focused on The political situation in the 1980s, the Round Table Talks, the Elections of 1989, and the government structures.
