

# April

## Grade 0 Newsletter – April in Review

### Introduction...

Spring has sprung! We continue our Fun Fridays reading books and playing games like "Taboo," "Dinosaurs" and "Go Fish" together!

### In English Language,

We started learning about Silent E which makes vowels say their name...shhh! We recapped nouns and began learning about punctuation - which gives us writing power! We wrote about birthdays and also reviewed the six question words that help us to be better writers! We also learned about adult animals and their babies.

### In Mathematics,

We wrapped up our unit on the calendar, naming and ordering the months of the year and days of the week! We also began learning about digital and analog clocks, along with telling time by the hour and half hour.

### In Social Studies,

We ended our unit on American symbols and began learning about Canadian symbols, like the maple leaf and mountie! We learned that Canada and America are both in North America, along with Mexico!

### In Science,

We reviewed weather patterns and started a new unit on our five senses! We learned sign language for each of the five senses, and did a scavenger hunt around our classroom too! We went outside for a spring nature and wrote down what we discovered with our amazing senses!

### In Art,

We read "Elmer the Patchwork Elephant" and drew our own elephants. We gave our elephant a unique pattern, and when we looked at all our elephants, we realized how wonderful it is to be different! We made spring stained glass kites, too!

## Pictures, pictures, pictures!

Happy April!

Miss Kelly

### IMPORTANT DATES:

May 1st - Labor Day

May 2nd - Day Off

May 3rd - Constitution Day

May 20th - Plan a Podcast Project

June 10th - Grade 0

Parent-Teacher Meeting
