

Grade 8 April Newsletter

Language Arts...

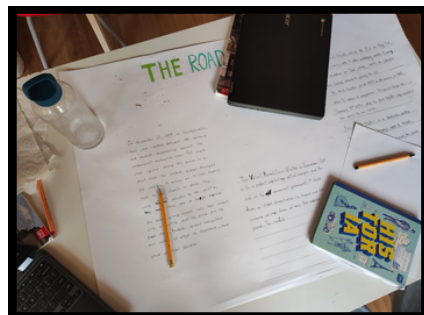

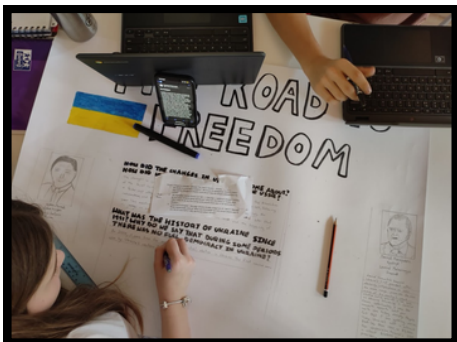

Students have been working hard to produce a speech for the speaking contest. Individuals and groups will be presenting information on their chosen topics. Students continue to read *Life of Pi* and expand their knowledge of vocabulary words. We are scaling and reconstructing a piece of modern art along with an informative or narrative text.

Math...

Students have been focusing on reading comprehension in math class. We are tackling all different kinds of word problems and getting used to the type of questions and vocabulary used in math.

Science...

The students have been learning about Ecology. How a variety of organisms live and interact within their habitats and biomes. The students successfully did a debate on this topic last week!

FREEDOM

History...

Students researched and created posters about different countries and their Roads to Freedom. We looked at Czech Republic and Slovakia, Hungary, Romania, Bulgaria, and Ukraine. Students were able to present their findings to the class.
