

May

Grade 0 Newsletter – May in Review

Introduction...

We began our fourth project called "Plan a Podcast," where we came up with our own podcast idea and recorded episodes on Chromebooks! Some interesting topics included were trees, experiments, animals and storytelling!

In English Language,

We learned about verbs, reviewed nouns and had an introduction to adjectives! We also looked at the sounds made by -ou- and -ow-, as in "April showers bring May flowers!"

In Mathematics,

We reviewed subtraction and had short introduction to ones and tens place values! We filled in simple bar graphs and also compared data on venn diagrams!

In Social Studies,

We learned the difference between wants and needs with our wants and needs mini book! We also reviewed community helpers and the jobs they perform.

In Science,

We identified living and nonliving things and also named their attributes! We learned that living things not only need food and water, but they reproduce and grow!

In Art,

We created umbrellas and raindrops to go with our "April Showers Bring May Flowers" literacy theme and also made Mother's Day cards! To finish, we made a collaborate summer themed poster!

Happy May!

Pictures, pictures, pictures!

Miss Kelly

IMPORTANT DATES:

June 10th - Grade 0/1
Parent Teacher Meeting

June 17th - Taco Truck
Business Project

June 24th - Summer
Break Begins!
