## 4th GRADE

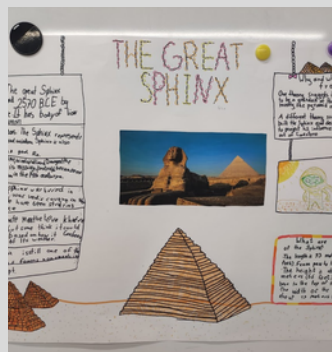

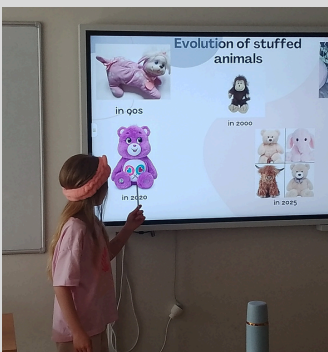

### LANGUAGE ARTS

The students have been learning how to write short stories and then illustrating those same stories. They also had a whole week primarily focused on drawing portraits of themselves, and writing to their pen pals in North Carolina, which they thoroughly enjoyed.

### MATHS

We learned about all different types of 2D shapes and worked on creating them using toothpicks and clay. We also looked at the beginnings of the data unit and what types of data can be gathered using surveys and how people represent the information in a visual way.

### HISTORY

Students worked in groups to create poster presentations about ancient Egypt, including: the Pyramid of Cheops, Hieroglyphs- the Ancient Egyptian Scripts, Mummies, The Great Sphinx of Giza, and Papyrus- the ancient writing material.

### SCIENCE

Grade 4 students are learning more about dinosaurs. They are using computers to research different types and their special features. In class, they also tried making their own fossils using toilet paper and water. This fun project helped them understand how fossils are made
