What We Learned...

January 2026

Language Arts

Students practiced for the spelling bee. They have been working through Unit 3 of the Cornerstone book, and started their first drafts of their expository essay on a newsworthy event of their choice. Students learned some background information before starting their second novel, *A Wrinkle In Time*. They will be reading and completing novel study packets to aid their comprehension, build vocabulary, and identify literary devices.

Mathematics

Students have been working on combining like terms in algebraic expressions, and then practicing again with equations.

Science

We studied the muscular system and concluded the unit on the skeletal system with a quiz. Students used the notes they prepared throughout the unit to support their learning and performance on the assessment.

History

Students learned about the American Civil War and the long term consequences. They also learned about imperialism in the 19th century and the Berlin Conference of 1884.

Happy
New Year!
